

The Evening School is Finalizing the Summer course to Begin the Winter course 2008 to Register old and new students

The success of the evening school is one of the accomplishments YAF is proud of, due to the registers that attend to the evening school.

The summer course has finished after lasting 3 months (that was from June 7th to September 7th 2008), and the graduation ceremony will graduate 70 students either children or youngsters or adults, which is considered to be the best course the Young Artists Forum (YAF) receives within the year, due to the availability of free time for children and youth. Each student receives 2 classes per week through the different ages and levels, depending on the student's skills and abilities. The evening school consists of 8 levels, and each student finish the fourth and eighth levels receives a certified certificate from the Palestinian Ministry of Education after finishing the final exam.

And the Evening school Artistic Manager Ms Alaa' Azzam stated that the exhibition and graduation ceremony will be soon prepared for to start the winter course 2008.

In addition Mr. Jasim Showman one of the talented and capable students in the evening school that finished 4 levels stated that he is font of drawing and he found YAF to be the "stress free" place that is needed for every human being that is thirsty for learning fine art, and he said quote: "YAF is a pure stream of art education, and also I find myself adoring fine art and YAF in a high pace , either the staff or the students, that gives me a push to life and I find my inner peace which I was looking for a long time and didn't find except in YAF".

The graduation of many students every 3 months after finishing 52 training hours and moving to the next level that consists of 8 different levels, is the source of pride of YAF to launch talented artists in the local community.
